

**MÖLLER CHEMIE**  
CHEMICAL PARTNERSHIP SINCE 1920

**Our world is chemistry**

# International Distribution

## Products

- BDO / 1,4-Butanediol
- Benzyl alcohol
- DBE / Dibasic ester
- DEC / Diethyl carbonate
- DINCH / 1,2-Cyclohexanedicarboxylic acid diisononyl ester
- DINP / Diisononyl phthalate
- DMC / Dimethyl carbonate
- DMM / Dipropylene glycol dimethyl ether
- DOA / Dioctyl adipate
- EEP / Ethyl-3-Ethoxypropionate
- Elatur® DINCD
- Elatur® DPT
- Hexylene glycol
- Isotridecanol
- MA / Methyl acetate
- MCH / Methylcyclohexane
- MEKO / Methyl ethyl ketoxime
- MIPA / Monoisopropanolamine
- Monophenyl glycol / Phenoxyethanol / EPh
- NMP / N-Methylpyrrolidone
- PC / Propylene carbonate
- Salicylic acid
- TMP / Trimethylolpropane (flakes/melt)
- Triethylamine

## Product areas

- Acids and Alkalis Anhydrides
- Additives
- Alpha Olefins
- Amines / Alcoholamines
- Antioxidants and UV-Absorbers / Stelogon
- Catalysts
- Epoxy Crosslinker
- Oleochemicals
- Organic Acids and Anhydride
- Plasticizers
- Resins
- Silanes
- Solids
- Solvents
- Surfactants
- Sustainable Products

# Production

## Tailor-made chemistry for your needs

In our modern reactors, we produce catalysts, process additives, and custom-tailored mixtures designed to meet your specific needs. From small batches to large-volume production, we guarantee maximum precision and flexibility.

We develop products together with you - from the first test in the laboratory to large-scale production. Our systems enable precise production and filling of a wide range of packages, from small containers to tankers.

We continuously focus on improving our production processes and are committed to resource-saving production, for example through the use of solar systems for energy supply.

## Expertise in chemistry and technology

Our experts support you with chemical-technical issues and process optimization. With analyses and tests in our laboratories, we guide you to the optimum solution. We offer our technical expertise for PU additives, coatings, epoxy resins, adhesives and sealants to optimize your production process.

- As a DIN ISO 9001:2015 certified company, we guarantee the highest quality standards through process improvement, training and regular audits.
- Reliability and responsible action are the basis of our work and our competence in the safe handling of chemicals is regularly confirmed.
- Through structured risk management and regular assessments, we create transparency and recognize opportunities and risks at an early stage.

# Services

## All from a single source

- **Filling liquids**

We fill liquids in all common types of packaging - from small 10 ml containers to tankers.

- **Transferring solids**

We transfer solids into all common types of packaging - from 5 kg bags to big bags.

- **Blending**

We mix chemically and physically compatible liquids for your specific requirements.

- **Dissolving solid into liquid**

We dissolve polymers precisely in polar and non-polar solvents.

- **Melting polymers**

Pre-tempered polymers are melted and carefully stirred into suitable solvents or oils.

- **Dispersing**

We stir viscous materials into homogeneous mixtures for optimum workability.

## Support

Our experts are always available to answer your questions. Find out more about our services and contact us at [service@moellerchemie.com](mailto:service@moellerchemie.com)

# We are Möller

## Tradition and innovation since 1920

Möller Chemie has been a traditional family business for over 100 years.

Based in Steinfurt in the northern Münsterland region, we are managed by Rainer Berghaus in the third generation. The fourth generation, Pia and Kai Berghaus, are already actively involved in creating the vision of the company's future.

As a family business, we focus on long-term partnerships, trust and respectful cooperation. Integrity, trust, team spirit, performance and appreciation are the principles that characterize our daily actions and ensure our success.

## Our values - What drives us

- **Integrity and trust:** Honesty and transparency in our cooperation are the basis of our actions.
- **Reliability:** We deliver customized solutions with fast response times and the highest quality.
- **Responsibility:** We take responsibility for the impact of our actions and continuously strive to improve our commitment to people and the environment.
- **Team spirit and appreciation:** Together we achieve more - we value the contributions of each individual and work together respectfully.
- **Performance and commitment:** We are passionate about achieving excellent results and the best possible realization of our goals.
- **Long-term relationships:** We focus on sustainable partnerships and continuous growth that strengthens us and our customers in the long term.

Elatur® DINCD and Elatur® DPT are registered trademarks of Evonik Oxeno GmbH & Co. KG.
